That's When I Know
Guitar tunes 6th string to D

D G/D A/D G/D D
Only in the day, only in the night: That's when I know You're next to me.
D G/D A/D G/D D
Only when I'm wrong, only when I'm right:That's when I know You're next to me.
G D
Only when I'm weak, only when I'm strong, Only when I'm singin' my favorite song...

Same Chords As Above

Only when I dance, only when I'm still:
That's when I know You're next to me.
Only when I'm empty, only when I'm filled:
That's when I know You're next to me.
Only when I frown, only when I smile,
Only when I'm walkin' each and every mile...

A7 G
Through all these years You have never left me.
A7 G D
I have Your word that You're faithful love will never end.

Same Chords Throughout

Only when it's open, only when it's closed:
That's when I know You're next to me.
Only when it comes, and only when it goes:
That's when I know You're next to me.
Only when I laugh, only when I cry,
Only when it hurts and I'm wonderin' why...

Through all these years You have never left me.
I have Your word
that You're faithful love will never end.

Only when You give, only when You take:
That's when I know You're next to me.
Only when You build, and only when You brreak:
That's when I know You're next to me.
Only when I live, only when I die,
Only when I'm biddin' this world goodbye....

Through all these years You have never left me.
I have Your word
that You're faithful love will never end.

Never end.
